GOING TO K1-K3

Programmes highlight topics such as feelings and values taught through Feelings, Virtues, Fables, Role Models and Science Series. Workshops are 1-hour long and are catered to no more than 8 students per class.

FEELINGS SERIES

Parent-
Approved

By learning about feelings, students deepen their understanding of themselves and enhance their interpersonal skills. Students learn to build their 'emotional dictionary' and then learn to identify, articulate and express their feelings to others, while also learning to empathise and relate to others.

FABLES SERIES

3 New
Workshops!

There is power in storytelling. Children are introduced to fables and learn character through some of the classics. Fables such as 'Lion and Mouse', 'Bundle of Sticks', and 'Crow and the Pitcher' will be used to highlight values like friendship, teamwork, and perseverance.

New!

The Boy Who Cried Wolf

GOING TO P1-P6

Programme topics highlight Character values such as gratitude, resilience, teamwork, and perseverance.

4 and 5-day programmes are 2-hours long each day and are catered to no more than 8 students per class.

HOW TO: USE STEM TO UNDERSTAND EMOTIONS

New!

A one-of-a-kind programme that unites STEM and SEL (social-emotional learning), bringing the best of both worlds together. For each day of the programme, students take part in a science experiment and learn the scientific theory behind it. The experiment then serves as an analogy of our feelings and how to manage our emotions. As an example, students learn about seismometers and heart rates. This then links to how when we feel scared, our heart rates increase and we learn how to calm our heart rates by being brave.

BIGBANG
ACADEMY

HOW TO: COMMUNICATE WITH OTHERS

New!

Communication is key. Students learn the importance of communicating clearly and explore different expressions of communication - verbal, and non-verbal, as well as look into online communication methods. They will consider the skills required for clear communication, such as clarity, intonation, tone, and pace. This programme comprises an outing.

HOW TO: PRIORITISE AND MANAGE TIME

School work, piano, reading, football - there's so much to do in a day! Through this programme, students learn to prioritise their schedule and how to be responsible in using their time. Through discussions and other hands-on activities, students learn the importance and skills of time management.

HOW TO: HAVE RESILIENCE

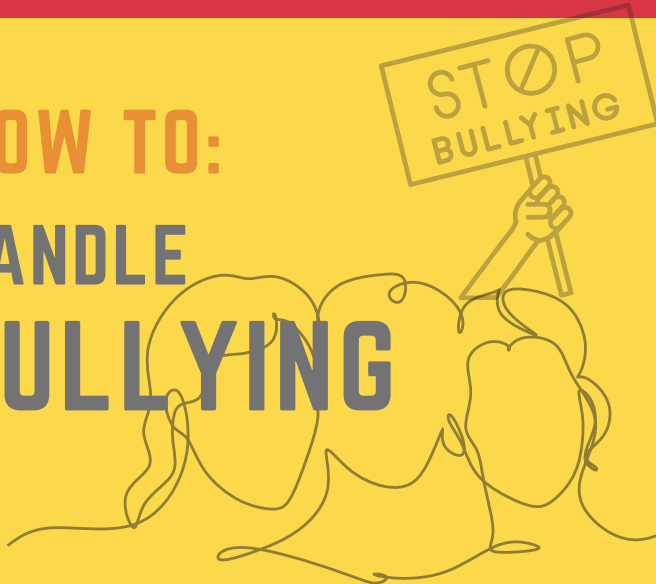

Challenges and setbacks are inevitable but it's how we 'bounce back' with resilience that counts. In this programme, students learn about the different internal and external 'tools' that help them grow in their resilience so that they can face any difficulty in life with positivity and courage.

HOW TO: PERSEVERE THROUGH SPORTS

Times are changing and change in our daily lives seems to be more present than ever. Learning to handle pressure effectively helps us overcome challenges and move towards accomplishing our goals. Students explore what pressure is and how it can affect their body, thoughts, and emotions. Students learn coping mechanisms to tackle pressure and how to apply them to their daily life.

HOW TO: HANDLE BULLYING

Relationships are complex. Students consider the 3Bs of Bullying - the bully, the bullied, and the bystander. They explore what bullying means and are guided into considering the intentions of another. Students also look into how their thoughts, emotions, and actions play a role in bullying and what that can look like. As students consider their role in friendships, they are reminded of the ways in which they can handle bullying in a sensible way if they come across these situations.

HOW TO: FIND FRIENDS & FACE FIGHTS

Students learn to identify qualities of a good friend and consider practical ways to build in that relationship. Students are also introduced to possible conflicts amongst friends and learn different approaches in communication to rebuild a friendship. The programme concludes with an outing component to help students put into practice the tools they have learnt in this programme.

New!

HOW TO: SET GOALS & HAVE MOTIVATION

Having long and short term goals gives us the direction in which to focus our efforts on and this programme helps students identify their dreams and goals. They learn about intrinsic and extrinsic motivation and how to have it 'fuel' them for achieving their goals. Part of the programme fee is in support of Make-A-Wish HK to help children with life-threatening medical conditions fulfil their dreams.

JEMS Character Academy was founded in 2009 with the vision of seeing each child as a Junior Excellent Member of Society (JEMS). JEMS is an English-speaking, after school learning community focusing on Character Education for children up to aged 12.

With the belief that great leaders who contribute to society not only have to be intelligent but also have to have strong character and values, the curriculum at JEMS focuses on building character as a foundation for raising leaders.
